YAROSLAV BAIDUK

Front-end developer

[Website portfolio](#)

ABOUT

I am a creative, initiative, cordial, and hard-working person looking for a job in Frontend development. I've been programming since 2016, first it was a dream to become a programmer, then grew into studying at the university.
I am constantly striving to learn new technologies and look for ways to improve myself in this industry.
Ready to work remotely.
